Industry Expertise

The MetaMesh Group is a team of 30 consultants with unique demonstrated expertise in financial services, public sector, supply chain, real estate, telecommunications, and sports. Spanning 5 continents, our team understands how exponential technologies are actually used by global enterprises to achieve positive business outcomes.

Our staff has previously worked at companies like ConsenSys, Cisco, Nortel, Toyota, American Express, Rio Tinto, the Government of Ontario, and several of the Big 4 professional services firms. Our technical expertise includes exponential technologies such as Blockchain, Cybersecurity, AI, Cloud services, and the Internet of Things.

Services

Our deep technical expertise and industry knowledge is our core capability. We help large and high growth organizations leverage emerging technologies to secure a competitive advantage, achieve scale, and generate new lines of revenue. We transfer our knowledge and expertise to build your capacity.

Call us

We succeed when our clients achieve tangible business outcomes. Let's have a conversation about the innovation trends we see in your industry. We are your trusted advisor and technology partner.
